EXPERIENCE

Information Systems Analyst Intern
Husky Energy
Lloydminster, SK | Summer 2017

- Developed and implemented methods to evaluate impacts of IS investment.
- Utilized Python, SQL, and Tableau to generate reports.
- Presented IS recommendations to project stakeholders.

Commercial Banking Intern
Royal Bank of Canada
Prince George, BC | Summer 2016

- Assisted with the management of commercial accounts, including relationship management and identification of account optimizers.
- Obtained new commercial clients through market and environment analysis.

Aboriginal Community Field Student
Statistics Canada
Prince George, BC | Spring 2016

- Travelled to Aboriginal reserves throughout Northern BC to collect data on services, housing and healthcare.
- Utilized Python (NumPy, Pandas, Bokeh libraries) to perform correlation analysis on variables. Results were presented to Aboriginal Affairs.

Finance Summer Student
County of Wetaskiwin
Wetaskiwin, AB | Summer 2014/15

- Developed a Python program that eliminated accounts with minimal credit from the mailing list, significantly reducing postage costs.
- Initiated, created, and deployed a digitized campground navigation project.
